Bedsore prevention

ULCILENE®

ULCILENE®, protective solution is indicated in the prevention of pressure ulcer and the treatment of pressure erythema (warning lesion).

ULCILENE® is an O.G.T. solution enriched with vitamin A and Omega 3 essential fatty acids.

ULCILENE® restores the hydro lipid protective film of the skin, limits transcutaneous water loss, facilitates restoration of normal blood microcirculation, thereby promoting cell turnover and preventing pressure ulcer.

ULCILENE® must be applied locally by gentle massage (with finger tip weight) to risk zones.
Massage is not painful.

Presentation :

Lotion : 20 ml spray bottle

ULCILENE® is a Medical Device Class I, complying with the requirements of Directive 93/42/EEC.
